TGS to Hold Open House to Showcase New CNC Centerless Grinder

WARREN, MI (June 26, 2014) -- Total Grinding Solutions (TGS), a worldwide manufacturer of centerless grinders, will hold an open house on Wednesday, August 13, 2014, from 9:00 a.m. to 3:00 p.m. at its Warren, Michigan, facility located at 13301 East 8 Mile Road. Manufacturing professionals are welcome and encouraged to attend.

TGS will demonstrate its new [TGS-CL-6030 CNC centerless grinder](#) as well as other state-of-the-art grinding equipment. The open house will feature in-depth seminars on the latest in grinding technology and advancements. Technical representatives will be available throughout the day to answer questions about grinding applications. Door prizes will be awarded and lunch and dinner will be provided.

"The open house is an all-day event that focuses on grinding, grinding and more grinding," says Chanley Chambers, TGS global sales manager. "The TGS team is very excited to introduce our new centerless grinder to the world. Our guests will have the first opportunity to learn why the TGS-CL-6020 centerless grinder is unlike anything that they've seen before."

TGS has working relationships with [GCH Tool Group](#), [GCH Machinery](#) and [CNC Link](#), which provide components, technical application consultation, engineering, installations and service to the grinding industry.

For more information or to register, please visit <http://www.totalgrindingsolutions.com/tgs-open-house> or contact TGS by phone at 586-541-5300.

About Total Grinding Solutions:

Total Grinding Solutions (TGS), based in southeastern Michigan, is a worldwide manufacturer of centerless grinders. TGS seeks to lead the industry by continuously engineering innovative equipment through significant investments in research and development and proactive product training. Along with the company's initial mission to manufacture quality equipment that is offered at an affordable price, TGS also focuses on machine reliability, which minimizes downtime,

lengthens machine life and reduces the cost of ownership. To learn more, visit www.totalgrindingsolutions.com, or contact TGS at <mailto:sales@totalgrindingsolutions.com> or 586-541-5300.
